MONEY DASHBOARD TAKES HOME BIG PRIZE TWO YEARS RUNNING

We are delighted to announce that Money Dashboard won the award for Best Personal Finance app for the second year in a row at The British Bank Awards despite fierce competition from Yolt, Plum, Cleo & Onedox.

Last week Smart Money People hosted the awards ceremony where the effects of Open Banking, a government initiative designed to increase transparency and innovation in UK financial services are already visible with winners ranging from household names such as HSBC, Natwest and Virgin Money to flourishing innovators such as Zopa and Starling Bank.

This is an exciting time, especially for independent FinTechs like Money Dashboard. Tens of thousands voted for their favourite products at this year's British Bank Awards. Hundreds of thousands are embracing new innovative fintech products and are benefiting from cheaper, faster and better financial services. We're on a mission to help millions of consumers enjoy their money more with our ever-improving app, so it is even more gratifying to win an award voted for by the public. A special thank you to all our shareholders who voted for us.

With red weather alerts across much of Scotland, the Money Dashboard team was unable to attend the London ceremony in person, but were delighted that four of our London based users were able to accept the award on our behalf.
